Possibility of Becoming Too Reactionary Seen as Only Republican Danger

Future of Third Party in Doubt; McAdoo Said to Cherish 1928 Hopes

BY ARTHUR SEARS HENNING CHICAGO, Nov. 6.—What ef

fect the Coolidge landslide will have upon the future of political parties in the United States is the parties in the United States is the subject of speculation among poli-ticians everywhere.

The full extent of the Coolidge sweep is now fully comprehended

by the political experts, if not by the public at large. The President won not less than 379 of the 531

the public at large. The Freshealt won not less than 379 of the 531 electoral votes when additional returns tonight placed North Dakota to his credit. New Mexico is still in doubt and if he is shown by the final returns to have won that State his total in the Electoral College will be 382, or a majority of 233 over Davis and La Follette combined.

That the Coolidge triumph both in the electoral and the popular vote is one of the two or three great victories in Presidential elections in the history of the country in already apparent. The President made a clean sweep outside of the solid South from the Atlantic to the Pacific oceans with the exception of Wisconsin, the home State of Senator La Follette, carrying with the tide the home States of John W. Davis, Brother Charley Bryan and Senator Wheeler, La Follette's running mate.

DARTY FATES TREE HAND FOR COOLIDGE AS OLD GUARD PASSES

Democracy Still Mandate of People Gives President Freedom to Act; Butler May Get Massachusetts Seat

[EXCLUSIVE DISPATCH]

WASHINGTON, Nov. 6 .- They are saying in Washington today that "a new Coolidge" presently is to be revealed in the Presidential chair. It is an inaccuracy, but with a germ of truth in the prediction, nevertheless. President Coolidge is not changed by the election in any manner. But he is a freer President than he has been; a President in his own right, at liberty to shape this government in accordance with his own desires rather than to act as a trustee for an inherited estate.

a trustee for an inherited estate.

But this is only the beginning of the story. Slowly, perhaps, without a public appreciation of what is and has been going on, the new is succeeding the old in the national government. The old guard, so-called, of Congress and the Republican organization, passes. Even today comes from Boston the story that Senator Henry Cabot Lodge, if he recovers, will never be able to serve again. Senator Brandegee stepped out of the world but the other day. Penrose has been gone these many months. A complete new set of men ran the wonderfully successful campaign that has just closed. Election to be

just closed.

The new guard comes, William M. Butler of Massachusetts, for example. New leaders are to arise in House and Senate. New faces are to appear in the Cabinet; new jurists on the Supreme Court of the United States. Nothing is to be hurried, but alloss to come in an ordinary fashion. Administration Has One Over

CITE PARTY CHANGES

CITE PARTY CHANGES

If one would have a hint as to the manner in which the governmental machinery is changing, let him observe the manner in which the machinery of the national Republican party was organized, or rather reorganized, last summer.

The parallel continues &F. Butler may be appointed a Senator from Massachusetts in Senator Lodge's place, an appointment that would help much to establish complete harmony between the Senate and the White House. Mr. Butler, as successful chairman of the Republican National Committee, is here, and has conferred with the President.

The election has been all that President Coolidge could have desired. Even with the newer reports from lowa indicating the re-election of Senator Brookhart, arch foe of the administration, it is calculated that the power of the La Follette bloc in the Senate has been broken. Counting in the new Senator soon to be elected from Connecticut, there are to be fifty five Senators classed as Republicans in the Sixty-ninth Congress. Deduct La Follette, Norris, Frazer, Ladd and Brookhart, and there are fifty, or one more than a majority.

Of course, Senator Howard of be contested. He said that he had notified all county auditors in Iowa to exercise the greatest care reported from the precincts preparatory to the official count to
be started next Monday.

Mr. Steck came to Des Moines
this afternoon from his home in
Ottumwa and immediately went
into conference with National
Committeeman Herring and State
Chairman E. J. Feuling and others. After the conference the conferees said they would make no
announcement of their intended
action.

announcement of their intended action.

Tenight, with the unofficial count thoroughly rechecked, Senator Brookhart led Steck, by 1116—the smallest margin by which any Republican candidate for major office has won in Iowa in many years. The total vote, as compiled by the Associated Press, was: Brookhart, 447,523; Steck, 446,407.

Of course, Senator Howard on Nebraska, Courses of Michigan, and Johnson of California betray insurgent tendencies at times, and McMaster, just elected Senator in South Dakota, has inclinations that way, but the tremendous popular vote given to Coolidge in their own States will temper the insurgency of these gentlemen.

Then, too, it is Washington gosmit has Senator Horam Johnson may retire from public life before

startling fashion. Not yet has the new leadership for which the political world waits developed. That this new leadership will be in accord with the "common-sense government" ideas of Calvin Coolidge is certain.

All the latest returns on the Congressional elections girengthen the regular Republican majority. As this is written a Republican paper majority of sixty-three seats is in sight. Making the most libers' deductions for La Follette Republicans, the regulars have a safe margin of more than forty, which is better than was actually expected.

There will be fewer and less changes in the organization of the House than in the Senate, but still

First Victor pianoforte solo record by Gabrilowitsch-new Victor artist

There is something new on Victor Records every week! Now it's a big dance hit again it is an unusual achievement in the field of great music. This week, Gabrilowitch who so brilliantly played the piano with the Flonzaley Quartet in the Schumann Quintette records recently announced, makes his Victor debut on a solo record; a record that reflect in every way his great fame in the concert world and reproduces exactly his fine mastery of tone color. He joins a distinguished company of pianists who also make Victor Red Seal Records,—make them because they bring out fully the individual touch of each,—of Bauer Cortot, De Pachmann, Novaes, Paderewski, Rachmaninoff, Samaroff! re-election "does not gratify any personal ambitions of mine. It means two years more of hard work, but I am only too glad to devote them to the best interests of the State."

Dwight B. Heard also extended thanks to those who hesped in his unsuccessful campaign, adding: "We were lighting for a really great cause. The campaign has been worth while and to me a real inspiration. We have tried to conduct a constructive and clean campaign and to outline new standards of Fublic service. I shall cheerfully accept the verdict of the people."

With nearly all precincts heard from, Hunt's majority is about 1100. Heard's defeat is considered especially due to lack of expected support in Maricopa and Pima counties, as a number of Democratic strongholds turned to him with gratifying majorities, especially in Yuma, Mohave and Yavapai counties.

the Beho de Paris, viewing the situation from its widest angle, declares the Republican landslide was seen greater than that achieved by the Conservatives in Great Britain. First of all, he says, it shows that ideological governments with a taste for an advanturous foreign policy are disfavored and it is to be foreseen that the results in Great Britain and the United States will have their offect in Italy, Spain and Beigium.

"Becondly," he continues, "England, more than ever, will tend to co-ordinate her action with America," which he believes will involve collapse of the Geneva protocol, an arbitration and security, the assembling of another disarmagent conference and a moderate but strict settlement of the inter-Butts strict settlement of the inter-Butts for remarks that "there is nothing changed in America."

sured, interest at the White House centered in the outcome of the Congressional consists and considerable satisfaction was apparent as returns indicated working majorities for the Republican party in the House and possibly in the Senate.

Mr. Coolidgs was able to devote some attention to government business in the afternoon, and at a conference of more than an hour with representatives of publishers' associations and Postmaster-General New considered the postal rate situation.

The publishers, including Cyrus H. K. Curtis of Philadelphia: Frederick W. Hume, secretary of the National Publishers' Association, and A. C. Pearson, chairman of the American Publishers' Conference, called to discuss the report requested by Congress on costs of the postal business as relating to transmission in the mails of publications. President Coolidge, also said he would suggest a measure directing the Secretary of the Treasury to refund annually to taxpayers all surplus funds in the Treasury above \$25,000,000. The refunds would be made in the current calendar year in which the surplus was available.

While he made no estimate as to the actual surplus funds onlived to be available in the various departments and bureaus, Mr. Madden said he expected to find at

BILL HENRY

The news that Notre Dame is to play U.S.C. at Pasadena is to play U.S.C. at Pasadens on New Year's Day is indeed welcome. The South Bend eleven, by reason of its unpar-alleled amount of travel and its success against the coun-try's leading teams, is with-out question one of the best-known, if not the best known, football team in the country. It is, incidentally, one of the few teams which seem able to

bunch and beat just about all
of them.

In years gone by, Notre
Dame did not enjoy the standing among rival institutions
that it now has. The South
Bend team was for many years
not accepted in best circles.
Strict attention to eligibility
rules, however, has almost
completely overcome this
prejudice, and of late years
Notre Dame has been accepted
among the elect. If Notre
Dame can get games with
members of the "Big Three"
in the East and the "Big Ten"
in the Midwest, the chances
are that there are few, if any
flies on Notre Dame's standing.

How, then, can people ac-count for the unequaled suc-cess of the Notre Dame elev-eus? In the first place, Notre Dame has one of the very fin-est football coaches in the

est football coaches in the country in the person of Knue Rockne. Mr. Rockne knows his stuff and nobody can deny it. In the second place, Notre Dame, with its fine athletic reputation, attracts the pick of the athletes of its own religious leanings from all over the country.

Third, and to our mind most important of all, is the Notre Dame system of football training which, as we understand it, is the bright young idea of Mr. Rockne. The college student body, composed of some 1500 or thereabouts—all men—is nothing more or less than an enlarged football squad during the spring training season, and during the regular gridinon year.

Everybody—plays football.

squad during the spring training season, and during the regular gridiron year.

Everybody plays football. Not only is there a varsity squad, composed of the very pick of the institution, but there is a complete interhall football league, which plays throughout the season. Probably as many as a score or more of football teams, any of which could provide a tough afternoon for the average college eleven, are playing all the stime, and they are all coached and drilled with exactly the same system as the varsity.

The result is that Mr. Rockne has a constant stream of young men coming up to his varsity squad who don't have to be told a blamed thing about the Rockne system of football. When a young man qualifies for the varsity squad he isn't just a good prospect—he's a top-ntoch football man who needs only to be initiated into the intricacies of varsity play to become a polished unit in a magnificent machine.

They tell the story of Tom Ldeb, the great discus thrower, and star tackle for Notre Dame a season or so ago. He hadn't been injured in his career, and when he suffered a fractured leg in a game everybody said: "There goes Notre Dame's football team." They say that Rockne merely picked out all the tackles from his hall teams, had 'em run a short sprint, and picked out a story print, and picked out a story print, and picked out a short sprint, and picked out as south sprint, and picked out as bear of the tackles from his hall teams, had 'em run a short sprint, and picked out as bear of the tackles from his hall teams, had 'em run a short sprint, and picked out as bear of the tackles from his hall teams, had 'em run a short sprint, and pi

Of course that yarn may not be exactly correct, but in any event it gives an idea of the system in vogue. By the time a man reaches the varsity he doesn't need hard scrimmage nor any instruction in fundamentals. He got all that in spring training. The actual football season is almost entirely spent in polishing up on the fine points of team play, with the result that Notre Dame boasts a finesse said to be unequaled.

It will be a real opportunity to see the result of this system.

The league schedule will be concluded next Friday, when Orange tackles Tustin on the local gridiron and Garden Grove meets Huntington Beach on the former's grounds. Although Orange is virtually conceded the title, a victory over both Huntington Beach and Tustin will be necessary to make things decisive.

Goodyear Park, Sixty-fourth and Central avenue, is expected to be crowded to capacity Sunday afternoon when the St. Louis colored Giants, undoubtedly the strongest club to invade the Southland in years, battles Cliff McCarl and his Gilmore Oilers.

The game will be in the second round of the Southern California Winter League, and as both outfits are considered pennant contenders, a tough scramble that should have the Central-avenue fans on their toes should ensue.

"Ferdie" Schupp, former New York Giant hurler, will oppose Fred Bell of the colored tossers. Gilmore will put an all-star lineup on the field with such performers as Ernle Vache, Don Rader, Walter Carlisle and Tub Spencer on the line-up,

runs and a classy forward-pass-ing attack gave Manual Arts High sing attack gave Manual Arts High lightweights a 14-to-7 victory over Franklin yesterday on the Printers' field. The game proved conclusively that the Toiler babes are one of the strongest teams in the ranks this year, and will make a big bid for the city championship. They scored two touchdowns in the first half against all the opposition the strong Franklin babes could offer and played a hard defensive game in the final periods.

The Toilers' first score came three minutes after the game started. Rose's kick was recovered by Hanson on Franklin's 40-yard line. Wide, sweeping end runs put the ball on the Kiteflyers' 2-yard mark. DeMicelli threw a pass to Smull for the first score. Rose converted. Both teams tried lots of place kicks, all of which were unsuccessful. Manual got the ball on Franklin's 35-yard line in the second quarter and Rosen hurled a pass to DiMicelli, who was downed on the 4-yard line. Franklin held three times, but couldn't stop Rose, who went over right tackle for the second quarter and Rosen hurled a pass to DiMicelli, who was downed on the 4-yard line. A lone touchdown, made by Kondo in the first cuarter, gave Lincoln High's lightweights a 6-to-6 victory over Hollywood yesterday and incidently their first victory of the season. The game was played on Lincoln's field. Kondo, who has scored every Tiger touchdown this year, was the big hero of the day. The speedy half was at his best yesterday, getting away to long end runs and snagging several impossible passes. Capt. Resell played plenty of good football also. Meeks and Edwards starred for Hollywood.

Lincoln's touchdown came in the middle of the first quarter when Kondo rambled about 45 yards in two plays.

Then it was that a cry went up from one of the men. "Kiche!" was what he uttered. It was an exclamation of surprise. The cub felt his mother wilting at the sound.

"Kichie!" the man cried again, this time with sharpness and au-thority.

And then the cub saw his mother, the she-wolf, the fearless one, crouching down till her belly touched the ground, whimpering, wagging her tail, making peace signs. The cub could not understand. He was appalled. The awe of man rushed over him again. His instinct had been true. His mother verified it. She, too, rendered submission to the man-animals.

BACKER OF DEMPSEY

PARIS. Nov. 6.—Jack Dempsey was the inspiration which put Emile Bellami, 23 years of age, in the hospital with two knife wounds. Bellami was in a cafe when a discussion arose on boxing. He backed Dempsey as the one and only prima dohns of the squared circle. Another favorite Carpentier. Anyway, to settle the matter the "boys" stepped out in the street.

Bellami let go a regular Dempsey wallop to the jaw which knocked the adversary sprawling. The adversary apparently didn't mind for he rose and hit Bellami twice: But in his hand he held a knife and Bellami faded out of the picture.

and was a complete surprise to State political circles. J. R. Gabert, newspaper publisher of Riverside, it is understood, had been offered the position as had others.

After announcement of the selection had been made, Gov. Richardson issued the following statement:

"This appointment is made by the prison directors. They have decided they want State Prister Frank Smith for the place. I regret very much to have him leave his present position. He is one of the most intelligent and efficient men in the State service and has handled a very difficult position with skill. His going will be a particular less at this time because of the coming of the legislative session. I would have preferred that the board had chosen some one else, but think they will be particularly fortunate if Frank Smith will accept the place. He has the executive and business ability necessary and will run the prison humanely and efficiently and will make it as nearly self-sustaining as possible."

and will make it as nearly selfsustaining as possible."

Frank J. Smith, a resident of
Los Angeles for twenty years, yesterday accepted appointment as
Warden of San Quentin Prison.
Mr. Smith was notified by President Van Smith of the State Prison Board at 1:30 p.m. over longdistance telephone from Sacramento and accepted at once.
Mr. Smith said he will not make
a formal statement of his plans
as Warden. "In accepting the
Wardenship of San Quentin Prison I do so with a sense of the seriousness of the nature of the
work," he said. "I would rather

Abolish Titles (BY CARLE-EXCLOSUS DESPATCH)
PARIS, Nov. 6.—Noble titles will
be abolished in France, according
to a law drafted by Minister of
Justice Reng Renault. Henceforth
no new titles will be invested and
no official recognition will be
taken of existing ones. More than
100,000 bogus titles are expected
to be affected, as less than 30,000
families in France are honestly entitled to carry them.

The government order strikes
a mortal blow to American heiresses seeking noble busbands, as
only the investure of imperial nobles under the 1806 charter remains valid.

It is estimated that more than
500 American women who married
so-called French princes, dukes,
barons and counts will become
henceforth plain madames.

year have had nothing to do with the "cut-out" movement, as it is called.

The plan to stop producing to-bacco in the great white burley leaf States of Kentucky, Missouri. Ohio, West Virginia, Tennessee and Indiana was launched here several months ago. The reason for the movement was declared to be that the Burley Tobacco Growers' Cooperative Association had large stocks of tobacco unsold and that a further huge crop in 1935 would add to these stocks and further depress the price of tobacco. It is the idea that if tobacco is not produced next year, stocks would be so depleted that the price would automatically advance.

to \$300 for certain major operations. Maximum fees for similar service range from \$10 to \$5000. Charity work is permitted on the part of physicians and surgeons, but they will not otherwise deviate from the scale, either in reducing the minimum or raising the maximum, except for good cause. The importance of the case and the responsibility strached to it weigh heavily in placing the maximum fees, and likewise, it was pointed out, the scale will allow persons of moderate means to obtain the best medical skill at a cost within their reach.

An example is the fee for a smallpox vaccination, where a minimum of \$2 and a maximum of \$25 is fixed. The report of the Building Inspectors of Vancouver and the sur-rounding municipalities shows that prosperity is returning to this part of the lower mainland. For the last ten months permits totaled \$11,821,312, against \$8,532,417 for the same period last year. A par-ticular point about this building activity is that \$0 per cent is new homes.

ROME, Nov. 6.—The Eternal City is in a quandary over its street traffic. In one street, twenty feet wide, there are street cars, taxicabs, pedestrians, horse-drawn vehicles and omnibuses during the rush hours, and yet nothing can be done to relieve the situation, as some of the best preserved ruins of ancient Rome border on the street. No City Council would dare to pass an ordinance urging the widening of the street and slicing in two or otherwise mutilating the monuments which have stood for ages. Not only would the Roman citizens protest, but the world would step in with its clamor. So Rome has to stand still and watch the city's streets become a gumbled mass of humanity and vehicular traffic, and yet do noth. The monuments which have shoomed the city's streets become a gumbled mass of humanity and vehicular traffic, and yet do noth. The monuments which subsoil would not doubt their triends and relatives. But I have found only one blend that retains the true, rich coffee flavor—and that is Newmark's High Grade Coffee in the blue can. "Its richness proves Newmark's Coffee is all high-grown and its darker color proves that all its coffee virtues are fully developed. The real test comes, of course, in the taste. I have yet to find any one who doesn't like my coffee. They all praise the flavor." Many a woman has won a reputation for wonderful coffee because she has the wisdom to use Newmark's. Things We do

WHEN a bank like Security Bank, gives its depositors courteous service, with the highest in-terest rate consistent with safety, that bank does not find it neces-sary to bait its new depositors with cash premiums.

When a bank, like the Security Bank, gives unceasing attention to the matter of giving EVERY customer careful, kindly, complete attention, that bank does not find it necessary to establish special "departments" for any of its customers.

To pay enough to at-tract the best men to our service; to hire enough such men so that each patron may have ample ne and courteous attention to transact business-this is the plan we

TRIUMVIRATE TO RULE CHINA

Semi-Soviet Government is Aim of Dictators

Foreign Minister Hints Chang and Tuan Left Out

Occupation of Tien-tsin by Manchu Army Begins

By Charles Dailey
(BY CARLS—EXCLOSIVE DISPATCE)
PEKING, Nov. 6.—The hope of
Marshal Tuan Chi Jui of heading Marshal Tuan Chi Jul of heading the provisional government and convening a conference of leaders of all factions was dashed today when Wang Chen Ting, at the initial reception of correspondents, as Foreign Minister, said it was the purpose of the present government of Gen. Feng Tu Hsiang, himself, and Hwang Fu—a virtual triumvirate dictatorship, with the re-remainder of the Cabinet as dummies—to continue the government until a conference under their auspices was convened; but this is not likely for at least two months. This is taken to mean that, unless challenged, these three, with Dr. Sun Yat Sen, whom Dr. Wang said was proceeding immediately to Peking, will carry out semi-soviet plans before the natural reaction of the people crystallises.

The Chinese in all classes were aroused by the summary election of the Emperor, whose palace today became a barracks for Gen. Feng's troops, with camel trains boldly entering the great south gate, never before opened exceptor state occasions. The monarchists in Tien-Tsin and elsewhere announce the purpose of visiting Peking, demanding not restoration but the fulfillment of the treaty made when the Emperor abdicated.

Dr. Wang denied emphatically a

PARLEY REPUDIATED

Dr. Wang, officially expressing the government's views, read a prepared statement saying that Gen. Feng undertook the highest responsibility possible to assume toward the country.

"In obedience to the dictates of conscience, we have driven a handful of corrupt persons from power. We have organized a government pending a readjustment, with the advice and consent of duly selected representatives of the people."

This part of the statement clearly repudiates the plan for Tuan Chi Jul coming to Peking to convene a conference, since Dr. Wang told inquirers at the conclusion of the reading that no steps had been taken to elect delegates, carefully side-stepping when asked if the bankers Chamber of Commerce, or others than militarists and politicians would be delegates. When further pressed he said the triumvirate was confident that Gen. Chang Tso-Lin, Marshal Tuan, and others would fall in with their view, but the manner of saying, coupled with the reaction against their seisure of power, indicated his feeling that they would not Join.

Winnipeg Electric Company

Thirty-Year Refunding Mortgage 6% Bonds.

Dated October 2, 1924.

New Issue.

Due October 2, 1954.

Callable at the option of the Company on 90 days' notice at 105 and interest on any interest date

Capitalization:

10,380,000

\$ 4,355,000

Total bonded debt to be presently outstanding

A. W. McLimont, Esq., Vice-President, has summarized his accompanying letter as follows:

BUSINESS AND PROPERTIES—The Winnipeg Electric Company, successor to a business organized in 1880, owns and operates an extensive electric light, power and railway, and gas system serving greater Winnipeg and contiguous territory, having a population estimated in excess 282,000.

This Company owns a modern 29,000 horsepower hydroelectric power plant on the Winnipeg River at Pinawa, a
12,000-horsepower auxiliary steam plant, and controls, through
majority stock ownership, the Manitoba Power Company,
Limited, which has a modern hydro-electric power plant of
an ultimate capacity of 200,000 horsepower, of which 56,000
horsepower is installed. It owns 118 miles of high tension
transmission lines and a comprehensive distribution system.
The Company has recently installed a modern Koppers byproduct coke oven gas plant which, together with the original installation, has a capacity of 2,500,000 cubic feet and
128% miles of gas mains. It also owns a 12-story modern
office building and a large amusement park in the City of
Winnipeg.

The Winnipeg Electric Company is assured of a substantial amount of power for its present and future requirements, through ownership of the majority of the capital stock of the Manitoba Power Company, Limited, which has a modern hydro-electric power plant at Great Falls, on the Winnipeg River, of an ultimate capacity of 200,000 horsepower, The entire substructure of this modern hydro-electric plant for the ultimate capacity, and the superstructure for three units have been completed together with two units installed aggregating 56,000 horsepower, and a tie-in-high-tension steel tower transmission line with the main transmission system of this Company. The City of Winnipeg owns a hydro-electric power plant which also serves the City of Winnipeg.

SECURITY—These bonds are secured by a mortgage lien upon the entire properties of the Company, how owned or hereafter acquired, subject only to \$4,355,000 prior lien bonds, for which sufficient bonds of this issue are reserved in escrow to refund said prior lien bonds at or before maturity. The Company has in its treasury an additional \$2,488,410 refunding mortgage 6% bonds, due 1954, the proceeds of which shall be used for general corporate purposes. Net property value, after deducting depreciation of \$3,965,972, is in excess of \$24,800,000, as compare with total funded debt in hands of public of \$14,735,000, including this issue. Additional bonds may be issued for refunding bonds of its subsidiaries, but no further issuance may be made except to an amount equal to additional paid-up capital stock provided

net earnings for each of the two preceding financial years shall have been equivalent to at least twice the amount required for interest charges on prior liens and securities issued under this indemure in the hands of the public, including

PURPOSE OF ISSUE—The proceeds from the sale of these bonds will be used to retire \$3,250,000 general mortgage and collateral 6% Bonds, due 1943, and current indebtedness incurred for capital expenditures and for general corporate purposes of the company.

EARNINGS—The earnings and expenses of the company for the twelve months ended June 30, 1923, and 1924, as certified by Messrs. Marwick, Mitchell & Company, chartered accountants, are as follows:

Net income equivalent to 1.8 times total interest charges, luding this issue.

including this issue.

Over 53% of the net earnings from operation are derived for electric and gas utilities alone which, together with other income, are in excess of total interest charges, including this issue. By control of the Manitoba Power Company, Limited, through majority stock ownership, this company is assured a substantial amount of power for its present and future requirements. The system connected load increased from 105,576 H.P. in 1920 to 186,450 H.P. as of August 31, 1924, or over 76%. Surplus earnings since January, 1916, together with maintenance and depreciation, aggregating in excess of \$8,000,000 have been invested in the company's properties. The Company is paying dividends regularly on \$3,000,000 7% Preferred Stock.

FRANCHISES—In the opinion of Company's company the

FRANCHISES—In the opinion of Company's counsel the street railway, electric and gas utilities are operated in the City of Winnipeg under perpetual franchises, the city having the right in 1927 and at the expiration of each 5-year period thereafter to, purchase the railway and all the real and personal property in connection with the working thereof upon payment of the full value of same, to be determined by arbitration.

All legal details in connection with this issue will be approved by Messrs. Simpson, Thacher, Bartlett, New York, and E. R. Parkins, K. C., Montreal, for the Bankers, and Edward Anderson, K. C., for the company.

We offer these bonds when, as and if, issued and accepted by us, and subject to the approval of our counsel. It is expected that interim receipts of Bank of Montreal will be ready for delivery on or about November 21, 1924.

ans field may have gravity producer on or tomorrow, if the Superior Oil Company succeeds in completing its Maxwell No. 3 without trouble. The orew was running four-inch oil string into the hole last night, and a combination shut-off and production test probably will be made today. Bottom of this well is at 4322 feet, with eight-inch casing set ninety-two feet higher in the hole at 4230 feet. Operators are watching the well with great interest, as the Superior set its water string considerably higher than any other company has yet attempted, and if the water shut-off is successful, it will mean that a much larger oil zone will be available. Maxwell No. 3 is near the Union Oil Company's Rosecrans No. 4, which yesterday made 2534 barrels of 41.5 gravity oil.

Another well in this district which is near the production point is the Associated Oil Company's Wanka No. 1, which completed a successful water shut-off yesterday at 4077 feet, and is now drilling into the oil sand, with the intention of making a production test at 4140 feet, according to field reports. ompany succeeds in

To Abandon Well

To Abendon Well

The Pacific Oil Company is abandoning its Baldwin No. 1 in the northern part of the Baldwin Hills district, it was reported yesterday by scouts. This well has been the subject of successive attempts to shut off water for nearly nine months, after being drilled to-4755 feet, it is said. Good oil showings were reported at 3900 feet, where the Pacific tried to shut off the water, but was never able to solve the problem. As soon as the hole has been plugged, according to Mining Burcau requirements, the machinery and crew will be moved to the southern end of the lease, to drill Baldwin No. 2. No. 1 is located on the northwestern corner of the Pacific's 1377-acre Baldwin lease, near the foot of Yukon street, and about 500 feet from the Pacific Electric right of way.

Baldwin No. 2 is to be drilled about 500 feet from the Pacific Electric right of way.

Baldwin No. 2 is to be drilled about 500 feet morth of the Standard's Los Angeles Investment No. 1, the discovery well of this area. This well was brought in several weeks ago at an initial rate of 150 barrels a day on the pump, but it, has dropped to around 100 barrels

barrels a day on the pump, but it has dropped to around 100 barrels a day, according to field reports.

Hoover Deepened

The Henderson Petroleum Corporation has recompleted its Hoover No. 1 in the Signal Hill field, and after deepening the well from 3400 to 3750 feet, is getting 450 barrels a day, according to officials of the company. The well is located at Walnut and Anderson streets.

Sidetracks Pipe

The Petroleum Midway Company, after struggling for several weeks to extract a string of tools from its Ducommon No. 1 in the northern part of the Athens field, has given up the job, and is side-tracking at 3200 feet, according to field reports. The well is located east of the area being tested by the Shell and Pan-American wells, and north of the Miley-Athens No. 1.

The C. C. Stall well at Downey is to make a test within the next few days, according to field reports. Four-inch casing is set at about 4300 feet, where oil showings have been reported. Gas indications were found while the well was drilling, it is said. Gots New Well

Goes on Pump
Parkford No. 1, one of Santa Fe
Springs' 1,000,000-barrel wells, is
pumping at the rate of 100 barrels a day, according to field reports. The well went off production several months ago, after it
had been making about 700 barrels a day for some time. The
Parkford interests are attempting
to place three other wells on the
pump in the Santa Fe Springs field.

Get Two Wells

Two new wells were completed in the Torrance field yesterday for a combined total production of 400 barrels a day.

The Standard Oil Company brought in its Marble Fee No. 22 at a depth of 3790 feet, with an initial production of 200 barrels a day. Initial production of 200 barrels a day.

The Chanslor Canfield Midway Oil Company completed its Del Amo No. 101 with a production of 200 barrels a day. This well is down 3550 feet.

Four New Cases and Two Deaths of Pneumonic Plague in Infected Area

The following bulletin, giving the latest accurate and authentic information of the pneumonic plague situation, appearing in two small local Mexican areas, was issued last night by Dr. W. M. Dickie, Secretary of the State Board of Health and director of the anti-plague

tary of the State Board of Health and director of the anti-plague committee:

There were two new cases of peumonic plague discovered last night—one from the infected Mexican area in Los Angeles and one from the Belvedere district, and two new cases were discovered to-day in the Belvedere district, all these cases developed in houses where previous cases had occurred and which were under quarantine and were being glosely watched. There have not been, therefore, any new foci. There was one death last night and one more today.

The names of the new cases are as follows:

Ramon Gonzales, \$12 Judson street.

Jose Olachea, \$608 Chicago street.

Marie Cassella, 5851 Brooklyn avenue.

Jesus Puents, 4087 San Carlos street.

Investigation of the probable hiding place of the kidnapers and their victim centered about the discovery that baby June was recently left a legacy of \$6600-a bequest which muddled more than ever the dispute over the custody of the little girl and her parentage, questions which have been fought out in court in several sensational trials.

The bequest, according to Mrs. Shosted's statement to Capt. Varnand, was made by the late D. A. Schanholzer of 2611 Elmwood avenue, Kansas City, Mo., who, Mrs. Shosted asserts, is the grandfather of the child. The money is under the administration of Mrs. Schanholzer.

CANDIDATES DISCUSSED

CANDIDATES DISCUSSED

The directors of the Committee of Ter Thousand met yesterday and discussed possible candidates for the municipal offices. They are expected to encourage well-known successful citizens into permitting their names to be presented for city office at the May primaries. With increased powers, responsibilities and salaries, under the new charter, the incoming officials will have a great opportunity for service to the community. The old-line politicians are also expected to be on the job seeking the new plums and shouting their old battle cry that "Public office is but a private snap for us."

The next municipal campaign, which is just beginning, is expected to be one of the most hotly contested in the history of Los Angeles, and the fate of the new charter hangs in the balance. For, if the men elected next spring are determined to give Los Angeles a city government that will be first, last and all the time for the people and are men of outsanding ability, then the new charter will set away to a fair start. That means a fair trial to achieve what its framers hoped and planned for it—the greatest amount of efficiency and an elimination of red-tape delays, waste of public money and failures in properly policing the city, paving and repairing the streets, protecting the public health and carrying out the other functions of government toward which the taxpayers will this fiscal year contribute more than \$20,000,000.

OAKS PENSION ACTION DELAYED

Commissioners Defer Final Decision One Week

Physician Reports ex-Chief "Very Stck Man"

Police Relief Association Fighting Petition

Action on Former Chief of Police Louis D. Oaks's application for retirement on a pension yesterday was deferred for one week by the Board of Fire and Police Pension Commissioners, when the matter came up for a hearing.

Oaks communicated with the secretary of the pension board yesterday to inquire the status of his case. He had been ordered to report to Dr. Herman Sugarman for a physical scamination before yesterday in line with his application, and his compliance with the order a few days ago was the first information to the general public that he was in the city.

A cablegram from Merida. Yucatan, recently told of his presence and the fact that he had obtained a divorce of the rapid-frebrand available there.

Mrs. Josie Oaks some months ago filed a suit for divorce asserting that the former Chief had been living with Catherine Uribe, the Spanish dancer who aided him in setting "Little Phil" Alguin out of Mexico.

Irving Heliman, president of the pension board, said yesterday that action on Oaks's application had been held over to permit further investigation into his case. Oaks asked for a pension on the ground of physical disability incurred by police work, particularly during his services as Chief. He is rated as a detective lieutenant and the granting of the pension board expects to make a positive decision on the application next Thursday at 11 a.m.," said Mr. Heliman. "The physician's report on Oaks is to the effect that he is a wery sick man." It became known yesterday that members of the Police Reilef Association have filed a protest with the pension board against the granting of a pension to Caks. In the protest it is asserted that Oaks did not incur disability through police work and that approval of his application would injure the pension board against the granting of a pension to Caks. had not specifically been authorized by Congress. He believed, however, according to his testimony, that the Navy had such authority from a general act.

Letters sent by Robison to Representatives Kelley and McClintic, Roberts showed, while dealing with the subject of reserves in some detail made no mention of the negotiations going on in the departments at the time for the trading of oil in the reserves for the Pearl Harbor work. Robison explained the absence of this information by saying that under the secrecy agreement with Fall he believed such information should come from the Interior Department as was agreed. Roberts then asked him if the reserves and oil ware not naval property and raised a question about another department being in control vol information concerning the Navy's property. It was understood by some in the courtroom that when Robison fastified that some members of Congress might prevent progress in the Navy's plans for the national defense, that the witness had in mind the activities in Congress of pactificist groups and members of congress in sympathy with the groups.

TELIS OF FALLIS DOUBT

Fall once doubted the legality of the proposal to trade oil in the reserves for storage facilities, Robison said Doheny's manner was such as to cause him to accept the strifed, but he told at length how he had insisted on the exchange being carried out and asserted that the Interior Department was but little more than a "tool" in his hands for the purpose.

I NIFING THE TICKET

The customary explanation of such victories as that of Gov. Smith in New York is that "Tammany Hall knifed the ticket."

Nothing, probably, could be farther from the truth. The fact is that there is a very large independent vote in New York City, whiching organization controls, and this accounts for the aplitting somewhere in the success of the solitations and the prussian spined on chests—and the Prussian spined on

Mrs. S: Yes, you can pluck your eyebrows to shape them if you want to. It will not mark the baby in any way, nor will the baby's eyebrows be any more shapely. Bables are not marked by frights. There is no nerve connection between the baby and the mother. The only thing that can affect the baby will be anything that powerfully affects its nutrition.

CHEST RETURNS CHAPLIN NOSE SUIT CLOSED

Wife of Film Star Settles Case Out of Court With Surgeon From Whom She Asked \$100,000

The nose of Mrs. Minnie Chaplin, wife of Sydney Chaplin, mo tion-picture star, will not become the center of a courtroom battle, it was learned yesterday. Mrs. Chaplin sued Dr. Robert Griffith las March for \$100,000, charging the doctor disfigured her nose. Yes-terday it was announced by the plaintiff that the case was settled out of court and there will be no trial.

STRONG SUPPORT

TRONG SUPPORT

That the Community Chest has the whole-hearted support of the local public was evidenced again last night when the Affiliated Improvement Associations of Los Angeles passed a resolution indorsing the federated charitable and relief campaign. Representatives of twenty-six associations attended the meeting. These associations represent a membership of approximately 100,000.

Seven divisional meetings of Chest workers were yesterday held at campaign headquarters. More than 1000 workers received campaign supplies at these meetings and expressed themselves as ready and eager to start out upon what they consider a modern crusade for unfortunate humanity.

ARE YOU BEGINNING TO DIE

ONE YEAR AGO

As Bernarr Macfadden Sees It

AND the signs of Death are many.

... A lessening of ambition . . . a lessening of enjoyment . . . increasing girth . . . decreasing energy, physical and mental. Slowly, the clean, trim, muscular lines of youth become lost, cloaked beneath the accumulating layers of fat, or the bony structure loses its clothing, and scrawny old age sticks its head around the corner.

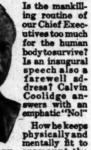

These are some of the signs of death.

It is a lengthy process. Nature sends many, many warnings — the morning headache, constipation, shortened breath, unwarranted fatigue, indigestion—each is an omen; each says "Beware!" for your useful days upon this earth are becoming fewer and fewer. The sands of life, not just existence, but life in the true sense of the word, are running out. Danger is not ahead, but here! You must stop, look and listen!

If I could condense the purpose of Physical Culture Magazine, define it in a few words (an almost impossible task) I would say its reason for existence is to arouse men and women to the dangers that surround them, to expose that vast army of quacks that prey upon human frailties, to point the road to health and happiness and detail its every curve and winding, to encourage-more, to inspire the seeker looking for complete life, to instruct him, to help him, to become a living vital force for good in the lives of thousands.

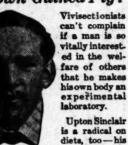

You will agree that the November issue of Physical Culture Magazine goes a long way toward making that creed an actuality. I heartily ask you that you read it.

TWO UNITS PROPOSED;
They suggested that the State highway system be administered in two units, one consisting of a primary system of about 3000 miles and the other a secondary system of district roads now in the State highway system.

Relative to the allocation of tunds—they suggested setting aside 50 per cent of the total revenue for maintenance and reconstruction of the primary system advocated and allocating the remainder to three districts, a northern, central and southern district, in proportion to the revenues received from the district in question.

tion.

They opposed charging original construction costs against the motor vehicle user alone pending further investigation and also opposed any plan to raise additional revenue until some program should be adopted heaving equal distributions.

ticed an increase in the reports of missing persons.
Yesterday two men, both past 50 years of age, and two boys were reported missing.
The men are B. S. Stapp. 57, of Oakland and Dudley B. Whittinghill, 62, of San Francisco. The former was reported by his wife to have disappeared more than a year ago and the latter left home for a visit in Los Angeles more than a year ago.
Archie Smith, 13, and Lowell Brown, 10, are the missing boys. Archie's mother reported the boys left her home in Azusz early yearerday and have not been seen nor left her home in Azuse early ves-terday and have not been seen nor heard of since.

All of the cases were turned over to Capt. Bright who supplied the information on which the newspa-per article was based.

STATE HELP SEEN FOR ROAD

pledge devised by Capt. Heath reads:

"I hereby solemnly pledge that I will at all times to the best of my ability studiously cultivate, carefully observe and actively practice all safety precautions to the end that the appalling sacrifice of human life and unnecessary suffering caused by carelessness may be stopped and the streets of Los Angeles made safe."

Members of the Public Service Commission, who have been working to bring about the permanent improvement of an automobile road into Owens Valley and the best into Owens Valley, expressed the belief that this project is meeting into Owens Valley among motorists and pedestrians ailite. He said a pledge campaign in New York City had reduced accidents.

INSANITY TRIAL ENDS

Case Involving Threats Against Keyes Ready for Jury

Testimony in the case of George W. Ranck, charged with insanity in connection with threats he is said to have voiced against Dist. Atty. Keyes, Superior Judge Willis and others, was concluded late yesterday and the case will be given to the jury today. Ranck was the last witness. He told of his conviction on a murder charge in 1911 and of being sentenced to ten years in prison. He was asserted to have threatened those who took part in his first trial because he though he had been railroaded. The case is being tried in Judge Collier's court.

Year's Increase of 41,000 Instruments is Recorded in Los Angeles

A quarter of a million telephone This significant marker in the filled at the banquet of all nations, growth of Los Angeles came as the

pacity of more than 750, will be filled at the banquet of all nations, to be given next Monday at 6:30 p.m., under the auspices of the First Friends Church, according to Rev. Frank W. Dell.

The banquet is the closing feature of the campaign which has been in progress by the Los Angeles First Friends Church for funds for the erection of a new church at West Seventeenth and Toberman, and the all-nations idea, the campaign manager says, is to be expressive of the time-honored Quaker message of world fellowship, and that tickets are issued on the basis of \$25 each, donated to the fund.

Other separate tables will include groups of American Indians, Russians, colored Americans, Japanese and Mexicans. while many combination tables will provide for persons of all nations. A table has also been provided, says Mr. Dell, for foreign consuls residing in Los Angeles.

SEPARATION OF CROSSING **AUTHORIZED**

Telegraph Road is to be Reconstructed at Tracks of Union Pacific

Authorization for the reconstruction of Telegraph Road under the Union Pacific tracks to eliminate the present dangerous grade cross

and the railroad, the commission decided.

Rivers Brothers Company, Inc., filed a complaint yesterday with the commission against the Southern Pacific for alleged unjust and discriminatory freight rates charged from November, 1922, to April last on shipments of apples from Soledad and Atascadero to Los Angeles. The company asks reparation of \$1972 and that a lower rate be established.

MANY AT RITES FOR MRS. S. T. FERRIER

Funeral services were conducted yeserday for Mrs. S. T. Ferrier, 78 years of age, who died on Tuesday at the home of her son-in-law and daughter. Mr. and Mrs. G. J. Vieira, 934 Fifth avenue.

Mrs. Ferrier for years had been active in affairs of the Methodist Church of this city and her funeral was largely attended by her former associates. She was born in New Lancaster, O., and was married in Delphi, Ind., to the late Capt. Samuel T. Ferrier. They moved to Los Angeles, where her daughter was married to Mr. Vieira, president and manager of the California Wallpaper Company, 925 South Broadway. Mrs. Ferrier had made her home with the Vieiras for many years. reserday for Mrs. S. T. Fer-

LATER HOUR SET FOR CHAMBER DIRECTORS

Following the meeting of the Chamber of Commerce directors yesterday, President Lacy issued a statement to the effect that next week's meeting of the board, instead of convening at noon, the usual hour, will not convene until 1:30 p.m., in order to permit directors to attend the Community Chest luncheon at the Biltmore. President Lacy made the public announcement that the meetings of the chamber committees had been called off for next week, with the idea of permitting the members of the chamber to assist in the chest drive. He has requested other civic organizations to cancel their weekly luncheons in order that citizens may render full support to the chest campaign. Chamber of Commerce directors
